### Features & Benefits

The **CAMON** C2000 Tiller has been specifically designed and "built-for-hire" at Tracmaster's headquarters in Sussex. This superb unit is the perfect tool for both commercial and D.I.Y. applications, and is capable of producing excellent results on, for example, garden borders, allotments and vegetable plots. This is an extremely rugged, robust and reliable machine which offers the operator simplicity and safety.

- Very simple and safe to operate
- Very heavy-duty bolt-up chain case
- Steel belt cover for longer life
- Adjustable handlebars which also fold over the machine for easy transportation
- Adjustable drag bar to control digging depth
- Lifting handle to assist with transportation
- Retractable transport wheel
- Tough, rugged construction
- Full 12 month warranty
